

# LARGE HORSEBOX

HB510XL, HB610 & CONTAINERS

# HB510XL

## HORSEBOX

The HB510XL offers the flexibility of carrying two horses up to 17.2 hh or up to four ponies. The HB510XL comes with a headroom of 2.3m and a locking groom's door as standard.

With its 14' internal length the HB510XL offers either a range of telescopic partitions, suitable for ponies\*, or a single centre partition allowing two horses to face forward.

A comfortable and safe environment for the horse is created through ample sliding windows and roof vents, ensuring plenty of light and fresh air. The thick rubber matting on the floor helps to minimise travel fatigue on long journeys.

Whether you are a livery yard, trekking centre, riding school or private individual with a string of ponies, this trailer, with a maximum gross weight of 3500kg, makes an ideal workhorse.

Additional options available on the HB510XL include combined rear ramp and van doors for greater flexibility.

\*Animals must not be carried adjacent to the groom's door under any circumstances. Please refer to the partition layouts for guidance.

### Loading Guidelines

Horse/Pony Size	Number Per Trailer	Number of Partitions	Partition Configuration	Trailer Payload
12.2hh	4	5	Diagonal/ Perpendicular	2110kg
13.2hh	3	4	Diagonal	2130kg
14.2hh	2	3	Diagonal	2150kg
15hh or over	2	1	Forward Facing	2145kg

# HB610

## HORSEBOX

The HB610 represents our largest trailer and can carry two large horses up to 17.2 hh with room to spare or up to five ponies. The HB610 has a headroom of 2.3m and a locking groom's door fitted as standard.

As with the HB510XL, the HB610 has a maximum gross weight of 3500kg. However, by offering additional trailer width, the telescopic partition system allows up to five pony stalls.\*

The wide front unload ramp, which comes as standard, makes this model unique and very useful for both horse and owner.† An additional benefit is the extra storage space available in the wind deflector, accessible from inside the trailer.

The sliding windows and roof vents provide a comfortable and safe environment for your horse, ensuring plenty of light and fresh air. Additional comfort is provided through thick rubber floor matting.

\*Animals must not be carried adjacent to the groom's door under any circumstances. Please refer to the partition layouts for guidance.

†The HB610 front ramp provides a headroom of 1.9m (74") and may not be suitable for front unloading of horses over 16.2hh.

### Loading Guidelines

Horse/Pony Size	Number Per Trailer	Number of Partitions	Partition Configuration	Trailer Payload
12.2hh	5	6	Diagonal/Perpendicular	1926kg
13.2hh	4	5	Diagonal	1946kg
14.2hh	3	4	Diagonal	1966kg
15hh	2	3	Diagonal	1986kg
15hh or over†	2	1	Forward Facing	1981kg

## CONTAINERS

Designed to be fitted onto new or used chassis cab vehicles, the container is the ideal choice for those not wishing to tow a trailer or have the expense and upkeep of a larger commercial vehicle.

## CONTAINERS

Unladen weight	1000kg
Internal height	2.16m
Internal width	1.82m*
Internal length	3.46m

\* For new Transit and new VW LT width is 1.96m

Containers are available to fit the Ford Transit, Iveco Daily and Volkswagen LT.

The containers have side-by-side stalls suitable for carrying horses of up to 16hh. They are constructed to the same standards as our horsebox trailers, with additional storage space in the Luton cab.

These complete units, including platforms, are supplied for fitting by a third party. Please consult your nearest dealer for advice on fitting and the suitability of your chassis cab vehicle.
